

Cordex EnviroCord Biodegradable Baler Twine

Envirocord biodegradable baler twine is engineered to be a high-performing, yet cost-saving alternative to sisal baler twine. It is water proof and odorless, and is solar degradable starting at 3 months of sun exposure. Enjoy 33%-50% lower input costs and guaranteed runnage, with comparable tensile strength to sisal twine.

Key Features and Benefits:

- Premium quality, solar degradable polypropylene
- Tension tested for strength and durability

Available Cordex Envirocord Baler Twine Sizes

- 9,000/140
