

SunFilm Silage Wrap

SunFilm Silage Wrap virtually eliminates the need for indoor storage of baled forage. For best results, wrap bales at 50-60% moisture, pre-stretch film to 55%-60%, and use a 50% overwrap with at least four layers on each bale. Limited stock on hand, special and/or large orders will require additional lead time.

Key Features and Benefits:

- 1-Mil LDPE with outstanding puncture, abrasion and tear resistance
- Excellent cling for a water and air tight seal
- Treated to resist UV light degradation for up to one year
- Reflective white film reduces heat buildup and loss of feed quality

Recyclable Plastic

UV Protection

Available SunFilm Bale Wrap Sizes

Type	Length	Size	Metric Dimensions
5 Layer	30" x 5,000'	1.0 mil	750mm x 1500m x 25um
