

Bale Net Wrap - RKW - Rondotex CE

Over-the-edge profile for hay, silage and straw.

You expect the best from the makers of RKW-HYPLAST, and their Rondotex CE bale net wrap meets their high standards of performance. Over-the-edge coverage means a precision edge for uniform wrapping and ease of storage. Net wrap also improves your bale integrity when compared to traditional twine.

Key Features and Benefits:

- Over-the-edge performance
- High tear resistance
- Can be used in all round balers with over-the-edge capabilities
- · Red side marker for easy handling
